

The Saskatoon Council on Aging Presents:

Beginner Digital Photography **With Dr. Barry Brown**

The Saskatoon Council on Aging is pleased to offer a **free** introductory digital photography class to the older adults of Saskatoon!

This class will teach students all about how to use a digital camera. This includes handling the camera and basic features, as well as changing basic settings. You will learn about the different storage systems, such as memory cards or the camera's internal memory; and how to get images from your camera onto your computer or turned into physical prints.

Students will learn about different topics related to photography, including ways to properly light a subject and the difference between indoor and outdoor photography. You will learn about basic composition and the rule of thirds to set up great shots. Along with some basic tips for posing, you'll soon be creating great images!

This class will begin Wednesday, March 24th and run for 5 weeks ending April 21st. It starts at 9 a.m. and runs until 12 p.m. All classes will be held in the Mamawopiwin Room 206 in the Saskatoon Community Service Village (506 25th St. E). Cameras will be provided for students. There is room for 15 students in this course to provide you with a comfortable and personal atmosphere!

Registration is required and spaces will be filled on a first-come, first-serve basis. We anticipate demand will be high, so register early to save your spot.

For more information or to register for this free course, please call the Saskatoon Council on Aging at 652-2255.
